Year 4 - Collaborative learning - HT1

Beacon Curriculum Computing
"Let your light shine." Matthew 5:16
Billinge St. Aidan's CE Primary School

Key Vocabulary

Collaborate	Working with others to achieve a specific goal.
Comment	Verbal feedback or notes to express a opinion on something.
e-Document	An electronic file which can contain text, images, tables and charts.
Edit	To change and amend something.
Email	Electronic-mail which allows us to send messages and files from one account to another over a network.
Icon	A small image which represents something or someone.
Insert (file)	To attach or place a file into an email or document.
Link	A line of text that, when clicked, directs you to another website or document.
Presentation software	A program that allows you to insert information into slides ready to share with others.
Presentation	A slide show that is used to display information.
Reply	To say or write a message in response to something that has been said to you.
Reviewing comments	Looking at comments written by others on a document to help the collaborative process.
Share	To show or give a part of something to someone else.
Spreadsheet	A file where you can input, sort and analyse data across a series of cells. Formula can be written to output mathematical solutions from the data.
Transition	Effects that can be applied to occur between slides, images or video clips.

Did you know?

You can work together online on presentations, documents and spreadsheets.

Working on an online document editor together:

Working on an online document editor together. A poster titled "ANIMALS THAT LIVE IN THE ARABIAN DESERT" with comments from collaborators.

Presenting the finished poster together:

Arabian desert animals
> Bactrian camel
> Arabian red fox
> Rattle snake
> Addax antelope
> Scorpion

To know statements ✔ ✘

To know statements	✔ ✘
I understand the need to be thoughtful when working on a collaborative document	
I know how to use comments to suggest changes to a document and understanding how to resolve comments on a document	
I know how to use a variety of different slide styles to convey information including images and transitions	
I know how to create a Google Form with a range of question types that will provide different types of answer, e.g.: text, multiple choice or numerical values	
I know how to export data to a spreadsheet, highlighting data using conditional formatting and calculating averages and sums of numbers	

What can you remember from previous units?

What is a network? How are they useful?
What is a server and how does it work?
What is a router?

Anything else you have learnt? What have you enjoyed?
