

# Diamond nine

Art should be...

|                                   |  |   |
|-----------------------------------|--|---|
| seen by everyone                  | only displayed in a gallery                  | created using paint and pencils                       |
| realistic                         | made on paper                                | for people to express themselves                      |
| created with a range of materials | symbolic and does not need to look realistic | something that can be experienced and not just viewed |
