

Ollie Octopus's Descenders

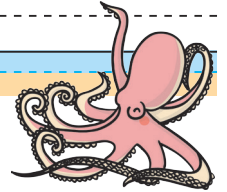

The letter 'g' is a descender (long letter) so its curly tail needs to go right down to the bottom line. Can you make sure that each one of your descender letters stretches right down to the seabed so low that only Ollie the Octopus can see them?

g

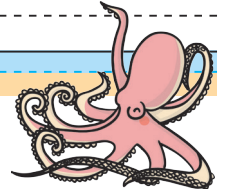

Write a line of all of the descender letters. Make sure all of them touch the bottom of the sea.

g p q j f y

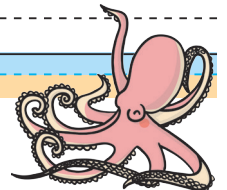

Now, use the letter 'g' in some words that also contain other descenders.

gap

golf

grey
